That modification allowed us to move further one step but hit next problem instead upon 'import columns':Fatal Error: PostgreSQL: ERROR: 23502: null value in column "is_password" violates not-null constraint DETAIL: Failing row contains (hotel, expense, expense_id, 1, Expense Id, null, integer, null, null, 10, 10, N, Y, PRI, nextval('expense_expense_id_seq'::regclass), 1, N, null, null, null, -2147483648, 2147483647, 0, 2147483647, null, null, null, null, null, null, null, null, null, null, null, N, null, null, null, null, null, null, null, null, null, null, null, null, 2014-06-14 04:27:40, EKL, 2014-06-16 17:36:29, EKL, integer). LOCATION: ExecConstraints, src\backend\executor\execMain.c:1611 (# 23502)

SQL query: UPDATE dict_column SET col_default='nextval("expense_expense_id_seq"::regclass)', col_auto_increment='1', is_password=NULL,auto_insert=NULL,auto_update=NULL,infinityisnull=NULL,revised_date='2014-06-16 17:36:29', revised_user='EKL' WHERE database_id='hotel' AND table_id='expense' AND column_id='expense_id'

Error in line 1446 of file 'D:\Pet\PHP Full Env\UwAmp\www\radpg184\includes\dml.pgsql.class.inc'.and this error when trying to do import columns for some other tables:Fatal Error: PostgreSQL: ERROR: 23502: null value in column "col_auto_increment" violates not-null constraint DETAIL: Failing row contains (hotel, department, department_id, 1, Department Id, null, varchar, null, null, 16, 16, N, Y, PRI, null, null, null, null, null, null, null, null, null, null, null, null, null, null, UPPER, N, null, null, null, null, null, null, N, null, null, null, null, null, null, null, null, null, null, null, 2014-06-09 01:53:40, MGR, 2014-06-16 17:59:12, EKL, varchar). LOCATION: ExecConstraints, src\backend\executor\execMain.c:1611 (# 23502)

SQL query: UPDATE dict_column SET col_auto_increment=NULL,col_unsigned=NULL,auto_insert=NULL,auto_update=NULL,infinityisnull=NULL,revised_date='2014-06-16 17:59:12', revised_user='EKL' WHERE database_id='hotel' AND table_id='department' AND column_id='department_id'

Error in line 1446 of file 'D:\Pet\PHP Full Env\UwAmp\www\radpg184\includes\dml.pgsql.class.inc'.Perhaps need to make more modifications to the table column definitions for dict_column?
