In case anyone is interested, here is the code to make it work:

```
style_custom.cssinput.submit {  
    background-color:white;  
}
```

```
footer.txt  
<script type="text/javascript">  
var inputs = document.getElementsByTagName("input");  
  
for (var i=0; i < inputs.length; i++)  
    if (inputs[i].type == "submit")  
        inputs[i].style.backgroundColor = "inherit";  
  
</script>
```
