Subject: Re: sample v3.0.0 filepicker error Posted by jjtoranzo2004 on Sun, 13 Jan 2013 22:13:31 GMT View Forum Message <> Reply to Message

Tony,

In this sample page http://www.tonymarston.net/sample/person\_add.php the file picker http://www.tonymarston.net/sample/x\_person(filepicker)\_x is not working.

It simply displays a blank page.

Perhaps it is not a bug but a security restriction.

In that a case a message explaining the restriction would be helpful.

Thanks again.
