Subject: Re: DropDown Field values - changing in runtime Posted by AJM on Tue, 15 Feb 2022 12:09:47 GMT View Forum Message <> Reply to Message

Please follow the sample code in Example of 'submit()' function where the javascript is set in the \_cm\_changeConfig() method. Whenever the 'onchange' trigger on this field is fired it will automatically submit the form to the server, and this will cause the \_cm\_updateFieldarray() method to be fired.
