According to your sample code the column with the dropdown list is
'ma_ausruestung_preis_eigenanteil', but you have not shown the contents of
$this->lookup_data['ma_ausruestung_preis_eigenanteil']. This is an associative array, so I am
interested in seeing the keys and the values. You have also not explained how the column
'gr_art_dropdown' fits into the picture. Where is the code which splits your multi-part value into a
series of separate values?
