---

This version contains the following changes:

Database changes:

- added column "task\_id\_quicknav"™ to MNU\_TASK table. Please run script menu\sql\mysql\alter\_table(2023-01-14).sql to update the MENU database.

Other changes:

made changes to various scripts to convert NULL to an empty string before calling any function that requires a string.

updated mnu\_control.class.inc to tighten rules regarding switching password encryption ON and OFF and changing the authentication method.

updated mnu\_user.class.inc to prevent switching password encryption between ON and OFF when the authentication method is not INTERNAL or SSL.

fixed bug in mnu\_saved\_selection.class.inc which failed to update is\_selected in mnu\_saved\_selection\_data table.

fixed bug in custom\_pre\_eraseRecord() method of std.table.class.inc which failed to call \_cm\_pre\_eraseRecord() method if there were no errors.

fixed bug in std.update3.inc which failed to deal with changes made to \$fieldarray during validation process.
