Quote:Is this the correct way to use Radicore?

No, it is not. You should define your username and password inside CONFIG.INC and not make any amendments to dml.mysql.class.inc. You need to read and follow the installation instructions at <http://www.radicore.org/installation.php> and pay special attention to item #10.

As for the error REG_BADRPT I suggest you take a look at <http://www.radicore.org/forum/index.php?t=msg&th=96> for the answer.
