Subject: Re: Existing data do not show up in LIST2 Posted by bbkwon on Tue, 04 Sep 2007 14:42:28 GMT View Forum Message <> Reply to Message

I would agree with you if it shows all or nothing. But a record I created in Radicore shows up and none of pre-existing ones. If you look at the data, they are not different. Since they share the same parent key.

I just can not understand this part!!

Thanks
