Hi I need some help with installation. I have managed to change a few files but I still get an error message. Here is the message:

Fatal error: Failed opening required 'classes/php_session.class.inc' (include_path='.;C:\phpdev\includesPATH_SEPARATOR../menuPATH _SEPARATOR../auditPATH_SEPARATOR../workflowPATH_SEPARATORC:\ phpdev\includes') in C:\phpdev\includes\std.singleton.php4.inc on line 39

Any help is appreciated
thanks
