Hi I need some help with installation. I have managed to change a few files but I still get an error message. Here is the message:

```
Fatal error: Failed opening required 'classes/php_session.class.inc'  
(include_path='.;C:\phpdev\includesPATH_SEPARATOR../menuPATH  
_SEPARATOR../auditPATH_SEPARATOR../workflowPATH_SEPARATORC:\phpdev\includes')  
in C:\phpdev\includes\std.singleton.php4.inc on line 39
```

Any help is appreciated

thanks
