In case anyone is interested, here is the code to make it work:

```
style_custom.cssinput.submit {  
    background-color:white;  
}
```

footer.txt

```
<script type="text/javascript">
```

```
var inputs = document.getElementsByTagName("input");
```

```
for (var i=0; i < inputs.length; i++)
```

```
    if (inputs[i].type == "submit")
```

```
        inputs[i].style.backgroundColor = "inherit";
```

```
</script>
```
