Run this SQL statement and it will insert entries into MNU_ROLE_TASK for all available roles:

```
INSERT INTO mnu_role_task (role_id, task_id)
  SELECT mnu_role.role_id, 'mnu_motd(show)'
  FROM mnu_role
  WHERE NOT EXISTS (SELECT 1 FROM mnu_role_task AS mrt
                    WHERE mrt.role_id=mnu_role.role_id AND mrt.task_id='mnu_motd(show));
```

I shall include this in the update script.
