Unfortunately not. The start task has to be a menu so that it can show any outstanding workitems or to-do items, plus the other options which are available on the home page Take a look at [http://www.tonymarston.net/php-mysql/menuguide/mnu\\_menu.html](http://www.tonymarston.net/php-mysql/menuguide/mnu_menu.html) and you will see what I mean.
