If you are using one of the modern browsers you should have the ability to view cookies. In IE9 go to Developer Tools, and on the 'Cache' tab is an option called 'View cookie information'. In Firefox go to the Web Developer Toolbar, and on the 'Cookies' tab is an option called 'View Cookie Information'.

You should also have the following settings in either your php.ini file or a htaccess file:
php_value session.use_cookies 1
php_value session.use_only_cookies 1
php_value session.use_trans_sid 0
