Tony,

In page

<http://www.tonymarston.net/php-mysql/infrastructure-faq.html>

I found the following problems:

Broken link :

[http://www.tonymarston.net/php-mysql/menuguide%5Cmnu_user\(upd1\).html](http://www.tonymarston.net/php-mysql/menuguide%5Cmnu_user(upd1).html)

Broken fragments:

http://www.tonymarston.net/php-mysql/functions-and-variables.html#notes._cm_pre_getData
(line 5168)

http://www.tonymarston.net/php-mysql/functions-and-variables.html#notes._cm_getForeignData
(line 3972)

Broken fragment:

<http://www.postgresql.org/docs/8.2/interactive/datatype-numeric.html#datatype-serial> (line 3619)
(I think the replacement is

<http://www.postgresql.org/docs/8.2/interactive/datatype-numeric.html#DATATYPE-SERIAL>
Case sensitivity hits again.)

Broken fragment:

<http://www.tonymarston.net/php-mysql/infrastructure-faq.html#fieldspec> (lines 1892, 1894, 1901)

Broken fragments:

http://www.php.net/manual/en/reserved.variables.php#reserved_variables.post (lines 306, 1106, 1108)

http://www.php.net/manual/en/reserved.variables.php#reserved_variables.session (lines 446, 469, 1106, 1409, 1410, 2141, 2152, 3389, 3391, 3397, 3398)

http://www.php.net/manual/en/reserved.variables.php#reserved_variables.get (line 306)

(Perhaps they could be replaced with

<http://php.net/manual/en/reserved.variables.post.php>

<http://php.net/manual/en/reserved.variables.session.php>

<http://php.net/manual/en/reserved.variables.get.php>

)

Broken fragment:

<http://www.tonymarston.net/php-mysql/menuguide/section04.html#navigation-button> (line 1879)

Broken fragments:

<http://www.tonymarston.net/php-mysql/dialog-types.html#f> (line 2206)

<http://www.martinfowler.com/books.html#eaa> (lines 238, 1645)

(perhaps it could be replaced with

<http://martinfowler.com/books/ea.html>)

Broken fragments:

<http://www.php.net/reserved.variables#reserved.variables.server> (line 2476)

(perhaps the replacement is

<http://php.net/manual/en/reserved.variables.server.php>)

Thanks.
