Tony,

The link to `unixreview` has a space in it making it a broken one

<http://web.archive.org/web/20041218024218/http://www.unixrev%20iew.com/mysql/>
"unixrev iew"

in page

<http://www.tonymarston.net/php-mysql/php-mysql%28links%29.html>

The correct one is

<http://web.archive.org/web/20041218024218/http://www.unixreview.com/mysql/>

(there is a problem in how the forum software displays links if I don't use the [url] syntax, it sometimes adds (visual) spaces in them)

<http://web.archive.org/web/20041218024218/http://www.unixreview.com/mysql/> (using the [url] syntax)

The link to `Dependency Injection != using a DI container'

<http://loosecouplings.blogspot.com/2011/01/dependency-injection-using-di-container.html>
from page

<http://www.tonymarston.net/php-mysql/dependency-injection-is-evil.html>, line 380, col 5
can be replaced with the current one

<http://www.loosecouplings.com/2011/01/dependency-injection-using-di-container.html>

The broken link to `Design Patterns for Building Flexible and Maintainable J2EE Applications'

<http://java.sun.com/developer/technicalArticles/J2EE/despat/>

from page

<http://www.tonymarston.net/php-mysql/design-patterns.html>, line 853, column 5
should be replaced with the archived version

<http://web.archive.org/web/20080215233825/http://java.sun.com/developer/technicalArticles/J2EE/despat/>

(the redirection to

<http://www.oracle.com/technetwork/java/index.html>

is not useful)

The link to `J2EE Patterns Catalog'

<http://java.sun.com/blueprints/patterns/catalog.html>

from page

<http://www.tonymarston.net/php-mysql/design-patterns.html>, line 854, col 5

can be replaced with the current one

<http://www.oracle.com/technetwork/java/catalog-137601.html>

The link to `Core J2EE Patterns'

<http://java.sun.com/blueprints/corej2eepatterns/Patterns/index.html>

from

<http://www.tonymarston.net/php-mysql/design-patterns.html>, line 855, col 5
should be replaced with the archived version:

<http://web.archive.org/web/20080223213309/http://java.sun.com/blueprints/corej2eepatterns/Patterns/index.html>

The redirection to

<http://www.oracle.com/technetwork/java/index.html>
is not useful.

Thanks.
