Tony,

I noticed a few more pages in the documentation that contain a literal ampersand & in URLs, instead of the correct &amp;

<http://www.tonymarston.net/php-mysql/radicore-front-end.html> (line 268)  
[http://www.radicore.org/viewarticle.php?article\\_id=138](http://www.radicore.org/viewarticle.php?article_id=138) (line 129 and 130)  
[http://www.radicore.org/viewarticle.php?article\\_id=139](http://www.radicore.org/viewarticle.php?article_id=139) (line 132)  
<http://www.tonymarston.net/php-mysql/model-view-controller.html> (line 79 and 1050)  
<http://www.tonymarston.net/php-mysql/infrastructure-faq.html> (line 220)

Thanks.
