Tony,

I noticed a few more pages in the documentation that contain a literal ampersand & in URLs, instead of the correct &

<http://www.tonymarston.net/php-mysql/radicore-front-end.html> (line 268)
http://www.radicore.org/viewarticle.php?article_id=138 (line 129 and 130)
http://www.radicore.org/viewarticle.php?article_id=139 (line 132)
<http://www.tonymarston.net/php-mysql/model-view-controller.html> (line 79 and 1050)
<http://www.tonymarston.net/php-mysql/infrastructure-faq.html> (line 220)

Thanks.
