Tony,

It seems Google only searches on one domain at the same time

<http://support.google.com/customsearch/bin/answer.py?hl=en&answer=115961>

The solution is to add another radio button and to separate the searches for
www.radicore.org and www.tonymarston.net

The alternative is use sitemaps

<http://support.google.com/webmasters/bin/answer.py?hl=en&topic=13452&answer=75712>

Thanks.
