Tony,

<http://www.tonymarston.net/uniface/standards.html#2003-09-20> in my browser takes me to the top of the page and so does

<http://www.tonymarston.net/uniface/standards.html#2005-01-22>

(but <http://www.tonymarston.net/uniface/standards.html#history> works fine)

Shouldn't line 888 be

```
<td><a name="2005-01-22">22nd Jan 2005</a></td>
```

instead of

```
<td><a name="#2005-01-22">22nd Jan 2005</a></td>
```

Thanks.
