Tony,

This is a question (not a bug report).

In

<http://www.tonymarston.net/php-mysql/3-tier-architecture.htm> I

what's the purpose of these links:

1) <http://www.kosmetikstudio-hamburg.net/fusspflege-hamburg>  
a cosmetics page in German.

2) <http://www.howtoaddlikebutton.com>

the starting page of a site that generates the html code for a Facebook button.

?

Thanks.
