is "includes/config.inc.default" supposed to be renamed to
"includes/config.inc"
because if I do, I get an error:-
This application has encountered an unrecoverable error

The following has been reported to the administrator:
2006-12-20 09:20:49

Fatal Error: Object of class mysql could not be converted to string (# 4096).

Error in line 47 of file '/opt/lampp/htdocs/xampp/Radicore/includes/dml.mysqli.class. inc'.

Script: /xampp/Radicore/menu/logon.php

Remote Address: 192.168.1.12

Request URI: /xampp/Radicore/menu/logon.php
