Result of FUNCTION GUESS = TRUE

'nother new error when commented out the line & 'nother error :-

This application has encountered an unrecoverable error

The following has been reported to the administrator:
2006-12-20 15:45:38

Fatal Error: SQL (# 256).

Error in line 47 of file '/opt/lampp/htdocs/xampp/Radicore/includes/dml.mysqli.class. inc'.

Script: /xampp/Radicore/menu/logon.php

Remote Address: 192.168.1.12

Request URI: /xampp/Radicore/menu/logon.php

which is in the mysql class constructor

any ideas?
