Subject: PopUp changes Key fields

Hi Toni,

I have a detail screen (upd1) in which I can call a popup (popup1) to change the corresponding values of a foreign key. After PopUp-Return the key fields of the record are also changed. The first three fields in both tables have the same name.
The popup fills in the correct values but the following error message appears:

Could not locate original ORGA_MANNSCHAFTEN_KONTAKTE record for updating (verbaende_art_id='LV' AND verbaende_kuerzel='HV S' AND vereine_kuerzel='SCA' AND saison_id='2017/2018' AND mannschaften_id='2005W' AND kontakt_ma_user_id='HTM' AND kontakt_ma_user_seq_no='195' AND kontakt_ma_user_rdcaccount_id='7')

What did I wrong?

Best regards,

Juergen
