Just as a side note, this new version does not seem to allow me to import columns of type boolean.

Seq: 7, user_size: user_size cannot be blank.
Seq: 7, col_maxsize: col_maxsize cannot be blank.
No entries found on DICT_COLUMN

I'm using phppgadmin to create the tables, which does not allow me to enter a size for a column of type boolean.

I'll switch it to another type, but I thought I would let you know.

Regards
Bob
