---

Just as a side note, this new version does not seem to allow me to import columns of type boolean.

Seq: 7, user\_size: user\_size cannot be blank.  
Seq: 7, col\_maxsize: col\_maxsize cannot be blank.  
No entries found on DICT\_COLUMN

I'm using phppgadmin to create the tables, which does not allow me to enter a size for a column of type boolean.

I'll switch it to another type, but I thought I would let you know.

Regards  
Bob
