I use Times for the column headings.

Here is the pdf.styles.inc entry:

```
$style['hdg_anwesenheit']['font'] = array('family' => 'Times', // Courier, Helvetica, Times  
    'style' => "", // blank=Regular, B=Bold, I=Italic, U=Underline  
    'size' => 9, // size in points  
    'height' => 3.9, // line height in units  
    'draw' => .3, // width of drawn lines  
    'overflow' => y, // overflow  
    'border' => '1', // position of border lines  
    'halign' => 'left'); // horizontal text alignment (left, right, center)
```
