Subject: Re: Filepicker - getDir() Posted by AJM on Wed, 01 Apr 2020 09:37:51 GMT View Forum Message <> Reply to Message

It would appear that somewhere in the processing I changed the relative path to an absolute path, so I will fix this in the next release which will follow shortly. In the meantime you can try the following code in the \_cm\_popupReturn() method: \$selection = \$this->picker\_subdir .'/' .basename(\$selection);
