Hi Toni,

after installing V 2.19.0 I get the following error when calling logon.php:

```
Fatal error: require(): Failed opening required 'include.general.inc'  
(include_path='.:usr/local/lib/php:/home/radicore/includes' ) in  
C:\xampp\htdocs\radicore\menu\logon.php on line 28
```

The include_path in my php.ini directs to the correct directory. What can I do?

Best regards,

Juergen
