Subject: Re: Tree structure with more than one table Posted by htManager on Wed, 01 Jun 2022 09:40:02 GMT View Forum Message <> Reply to Message

Yes, I know and it works fine. But what I mean is, if it is possible to create a structure with more than one 'node' table? I attached a screen shot where you can see the organisation hierarchy. These occurences are all stored in one table. Now I have additional tables for the teams and for the team members. And my question is, if these two additional tables can be shown in the tree structure?
