Radicore 1.48

Postgresql 9.3.4

Right after successful login the following error message appears:

Fatal Error: PostgreSQL: ERROR: 42883: function date_sub(timestamp without time zone, interval) does not exist LINE 1: DELETE FROM php_session WHERE last_updated < DATE_SUB(NOW()):... ^ HINT: No function matches the given name and argument types. You might need to add explicit type casts. LOCATION: ParseFuncOrColumn, src\backend\parser\parse_func.c:306 (# 42883)

SQL query: DELETE FROM php_session WHERE last_updated < DATE_SUB(NOW)::timestamp, (14400 * INTERVAL '1 SECOND')::interval)

Error in line 501 of file 'D:\Pet\PHP Full Env\UwAmp\www\radpg148\includes\dml.pgsql.class.inc'.

If you look at the installation instructions on <http://www.radicore.org/installation.php> section 5(B)

for PostgreSQL users the last point mentions the 'mysqlcompat' library which you can install to mimic various functions which are found in MySQL.

Indeed, after importing ...\\dict\\sql\\postgresql\\mysqlcompat-1.04b into PhpPgAdmin fixed this problem. Thanks.
