For those who want to do in for an existing installation here goes:

```
ALTER TABLE `survey`.`answer_option` CHANGE `created_date` `created_date` DATETIME
DEFAULT '2000-01-01 00:00:00' NOT NULL;
ALTER TABLE `survey`.`asset_type` CHANGE `created_date` `created_date` DATETIME
DEFAULT '2000-01-01 00:00:00' NOT NULL;
ALTER TABLE `survey`.`default_prompt` CHANGE `created_date` `created_date` DATETIME
DEFAULT '2000-01-01 00:00:00' NOT NULL;
ALTER TABLE `survey`.`location_address` CHANGE `created_date` `created_date` DATETIME

The classroom-schema.sql too has the same issue.

```
ALTER TABLE `classroom`.`crs_class` CHANGE `created_date` `created_date` DATETIME
DEFAULT '2000-01-01 00:00:00' NOT NULL;
ALTER TABLE `classroom`.`crs_lesson` CHANGE `created_date` `created_date` DATETIME
DEFAULT '2000-01-01 00:00:00' NOT NULL;
ALTER TABLE `classroom`.`crs_room` CHANGE `created_date` `created_date` DATETIME
DEFAULT '2000-01-01 00:00:00' NOT NULL;
ALTER TABLE `classroom`.`crs_schedule` CHANGE `created_date` `created_date` DATETIME
DEFAULT '2000-01-01 00:00:00' NOT NULL;
ALTER TABLE `classroom`.`crs_schedule_hdr` CHANGE `created_date` `created_date`
DATETIME DEFAULT '2000-01-01 00:00:00' NOT NULL;
ALTER TABLE `classroom`.`crs_student` CHANGE `created_date` `created_date` DATETIME
DEFAULT '2000-01-01 00:00:00' NOT NULL;
ALTER TABLE `classroom`.`crs_subject` CHANGE `created_date` `created_date` DATETIME
DEFAULT '2000-01-01 00:00:00' NOT NULL;
ALTER TABLE `classroom`.`crs_teacher` CHANGE `created_date` `created_date` DATETIME
DEFAULT '2000-01-01 00:00:00' NOT NULL;
```

There are still several references in the code to '0000-00-00 00:00:00' like in

`$fieldvalue == '0000-00-00 00:00:00'`

in both sql and .inc files,

Will NULL values (and empty checks) be useful and how do earlier (Pre 5.6) MySQL DBs be managed?

Scripts that generate PHP pages too should be taken into account.
