This version contains the following changes:

Database changes:
- added column 'task_id_quicknav' to MNU_TASK table. Please run script
menu\sql\mysql\alter_table(2023-01-14).sql to update the MENU database.

Other changes:

made changes to various scripts to convert NULL to an empty string before calling any function
that requires a string.
updated mnu_control.class.inc to tighten rules regarding switching password encryption ON and
OFF and changing the authentication method.
updated mnu_user.class.inc to prevent switching password encryption between ON and OFF
when the authentication method is not INTERNAL or SSL.
fixed bug in mnu_saved_selection.class.inc which failed to update is_selected in
mnu_saved_selection_data table.
fixed bug in custom_pre_eraseRecord() method of std.table.class.inc which failed to call
_cm_pre_eraseRecord() method if there were no errors.
fixed bug in std.update3.inc which failed to deal with changes made to $fieldarray during
validation process.

Could you please insert the zip file.

File /home/radicore/downloads/radicore-2023-04-04.zip does not exist
