Mr. Marston

I need to keep password history and requires that a new password is different than any of the last four passwords used. I am looking in the menÃº control table but i canÂ´t find a parameter to set with this requirement. (I am using Radicore V 1.76)

Than you in advance for you observations

Best regard

Juan Guilarte

There is no password history in Radicore. The only restriction when changing passwords is that the new password cannot be the same as the old password, and that the new password matches the password rules on the menu control record.
